

INDUSTRIAL SECURITY UNIT

PROVIDES THE RIGHT SOLUTION WHERE
AND WHEN YOU NEED THEM

TAQQAT network of highly trained security specialists are ready to help you make informed Decisions about the vast product & solution offerings available in today's rapidly changing security marketplace.

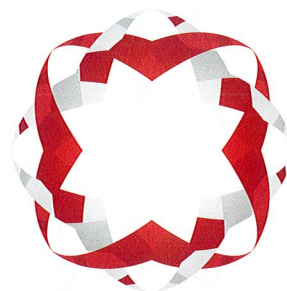

TAQQAT has a broad Product & Solutions offering to fit your current and future security needs.

INTEGRATION

In the Commercial/Industrial sector, companies' needs go beyond the basic physical security system. Due to the variety and complexity of most commercial/industrial companies, the security system can go from simple to very complex.

Most of these companies require combination of Access Control, Video surveillance, and Intrusion systems to have a complete solution for protecting their people and their assets. Fire protection is also a required part of the security and safety system found in Commercial/ Industrial companies. There is a greater need for an evacuation plan in case of accidents, fire, spills, etc.

TAQQAT qualified team can derive solutions well positioned for all these sectors with their capability to integrate all of the required systems.

TAQQAT
